Projects

PORTFOLIO

I have created my self-designed portfolio website, a reflection of my skills and accomplishments.
- I've skillfully crafted my portfolio website using React, highlighting my resume and achievements.

E-COMMERCE Website

Experience a fully functional demo e-commerce website built with the MERN stack, offering a glimpse into seamless online shopping.
- I have created a demo website with basic functionality similar to E-commerce website.

SAAS Based Story Website

I have created a SAAS story platform using MERN stack, a creative haven where you can both pen your own narratives and immerse yourself in captivating tales written by others.
- I created a simple website using MERN stack where you can create and publish your stories and read other published stories too.

Academic and Extracurricular Achievements

- Got best student award twice in my school.
- Participated in volleyball game and won gold medal in my intra school competition.

Positions of Responsibility

Project Head
- I was project leader in 5th semester where I distributed the work to my teammates and managed the project throughout the project process.
- Successfully lead my project team and scored merit marks in final review.

GeeksForGeeks Club
- I was a member in GFG club in my college.
- Participated in coding competition conducted by GFC club.
